

MUFFLER-RECLASSIFIER

ECS SERIES

General Description: The ECS (Muffler-Reclassifier) eliminates unwanted oil mist and reduces exhaust noise from pneumatic valves, cylinders and air motors.

- Features:**
- 99.97% Oil removal efficiencies.
 - 25 dBA Noise attenuation.
 - 1/2" NPT and 1" NPT.
 - Disposable units.
 - Continuous or plugged drain option.
 - Metal retained construction.

AUTOMATIC DRIP LEG DRAIN

- Features:**
- Auto drain ported 1/8" to pipe away liquid.
 - Drain has manual override.
 - Easily serviced without tool.
 - 10-250 PSIG range.
 - Compact size.

| Model No. | Size |
|-----------|------|
| 06D1NA | 1/4" |
| 06D3NA | 1/2" |

RELIEF VALVE

- Features:**
- Large relief capacity in a compact size.
 - Lightweight aluminum construction with resilient seat.
 - Relief range: 50 to 200 PSIG with standard spring
 - Operating temperature: 32°F to 200°F
